NASHVILLE ANALYTICS SUMMIT 2021

Presented by aws

# Get your model to production faster

**Jason Parker, Director Data Science**

Care Transformation & Innovation

HCA Healthcare®

# Clinical Data Science @ HCA Healthcare®

- Support improved clinical outcomes for our patients
- Drive operational efficiency for caregivers and colleagues in 185+ acute care hospitals across the United States

- Join our team (Associate Data Scientist)

# What does “production” mean?

- Generating real predictions that will be used by real people to impact **real decisions**
- What that implies: We need a way to deliver predictions to N downstream systems and applications with high reliability and low toil.

# Design patterns are good

- Enhance reliability
- Reduce toil
- Enable collaborative support models

# Some things I think you should read
